Assignment Applications Approved

On September 7, 2018, the Division of Oil and Gas (Division) received assignment applications in the above leases transferring 100 percent working interest from Golden Eagle Petroleum Limited to NordAq Energy, Inc, with Golden Eagle Petroleum Limited retaining a 1.5 percent overriding royalty interest.

I hereby approve the applications with an effective date of October 1, 2018. One original copy of the assignments has been placed in the lease case files, and one original copy has been returned to both the assignor and the assignee.

Any party holding an interest in the assigned lease may be required to enter into a financial assurances agreement in the future to ensure dismantlement, removal, and restoration obligations can be met.

As the Division does not record assignments, you may want to record the assignment in the appropriate recording district. Please visit the State Recorder's Office website at <http://dnr.alaska.gov/ssd/recoff/> or call (907) 269-8872 for recording requirements and fees.

Sincerely,

A handwritten signature in black ink, appearing to read "CW" or similar initials, with a small "for" written below it.
