SALE
ANNOUNCEMENT

STATE OF ALASKA

NORTH SLOPE FOOTHILLS AREAWIDE 2002
COMPETITIVE OIL AND GAS LEASE SALE

The Department of Natural Resources (DNR), Division of Oil and Gas (DO&G), gives notice under AS 38.05.945(a)(4), that it will offer lands for competitive oil and gas leasing in North Slope Foothills Areawide 2002. The lease sale is scheduled to be held at 8:30 a.m., on May 1, 2002, in the Wilda Marston Theater, in the Loussac Public Library, 3600 Denali Street, in Anchorage.

The sale area covers approximately 7.65 million acres lying between the Arctic National Wildlife Refuge and the National Petroleum Reserve-Alaska, south of the Umiat Meridian Baseline to the Gates of the Arctic National Park and Preserve. The sale area, which is entirely within the North Slope Borough, has been divided into 1,347 tracts ranging in gross area from 1,920 to 5,760 acres. The sale area contains acreage owned by the State of Alaska, Arctic Slope Regional Corporation (ASRC) and the United States.

Activities resulting from this sale may affect the cities of Anaktuvuk Pass, Barrow, Nuiqsut, and Kaktovik, and the community of Deadhorse.

DO&G has prepared an official tract map that displays the location of all tracts within the sale area. The tract map reflects state acreage (both conveyed and selected/topfiled), federal acreage, and ASRC acreage (both conveyed and selected). Some ASRC acreage has been topfiled by the state. Topfiling allows the state to request acreage that is not currently available for selection, but may at some future time be available for selection and conveyance to the state. Topfilings attach as selections at such time as the acreage becomes available for selection. Only those lands within the sale area, which have been conveyed to the state and are not covered by existing leases as of January 3, 2002, will be considered available for leasing. Lands selected or topfiled by the state, but not yet conveyed, cannot be leased by the state. Lands that become available for lease after January 3, 2002, will be offered in North Slope Foothills Areawide 2003,

“Develop, Conserve, and Enhance Natural Resources for Present and Future Alaskans.”
scheduled for May 2003. **Bidders are cautioned to verify state title to acreage within these townships/tracts prior to bidding.**

The exact amount of the net leaseable acreage in any tract will not be determined unless a bid for that tract is received. At that time DO&G will complete a comprehensive evaluation of the lands within the tracts that received bids. Acreage not owned by the state, already subject to an oil and gas lease, or clouded by title claims will be excluded from the lease.

**State/ASRC Lands**

There are no lands jointly owned by the State of Alaska and ASRC within this sale area.

**Tract Deletions**

Tracts 1341 through 1347, 1343X, 1356 through 1382, 1357X and 1358X have been removed from the North Slope Foothills sale area. The state has not received title to this acreage and does not anticipate doing so in the future. The sale area boundary had been adjusted accordingly.

The state reserves the right to delete any acreage or tract from the sale at any time before the issuance of a lease.

**Best Interest Finding and ACMP Consistency Determination**

North Slope Foothills Areawide 2002 is an exempt sale held under Alaska Statute(s) 38.05.180(d)(1), and 38.05.035(e)(6)(F). Under these provisions the commissioner may annually offer oil and gas leases of acreage that have been subject to a best interest finding issued within the previous 10 years, unless the commissioner determines that new information has become available that justifies a supplement to the finding.

In support of this lease sale, the director of DO&G prepared and disseminated a written final finding and decision under AS 38.05.035(e) and (g), which sets forth the facts, policies, and applicable laws upon which he has based his determination that leasing in the Foothills area will best serve the interests of the state. This finding was issued on February 7, 2001. In addition, a final coastal zone consistency determination was made that a Foothills lease sale is consistent with the North Slope Borough and Alaska Coastal Management Programs (ACMP) under AS 46.40.

On September 18, 2001, DO&G issued a Call for New Information North Slope Foothills Areawide 2002. Though no significant new information was received, DO&G is issuing a supplement to the finding that clarifies two of the mitigation measures.

**Appeal Procedures**

A person affected by this decision who provided timely written comment on this decision may request reconsideration, in accordance with 11 AAC 02. Any reconsideration request must be received by **February 19, 2002**, and may be mailed or delivered to Pat Pourchot, Commissioner, Department of Natural Resources, 550 W. 7th Avenue, Suite 1400, Anchorage, Alaska 99501; faxed to 1-907-269-8918, or sent by electronic mail to dnr_appeals@dnr.state.ak.us. If reconsideration is not requested by that date or if the commissioner does not order
reconsideration on his own motion, this decision goes into effect as a final order and decision on March 1, 2002. Failure of the commissioner to act on a request for reconsideration within 30 days after issuance of this decision is a denial of reconsideration and is a final administrative order and decision for purposes of an appeal to Superior Court. The decision may then be appealed to Superior Court within a further 30 days in accordance with the rules of the court, and to the extent permitted by applicable law. An eligible person must first request reconsideration of this decision in accordance with 11 AAC 02 before appealing this decision to Superior Court. A copy of 11 AAC 02 may be obtained from any regional information office of the Department of Natural Resources.

Mitigation Measures
AS 38.05.035(e) and the departmental delegation of authority give the director, DO&G, the authority to impose conditions or limitations, in addition to those imposed by law, to ensure that the disposal best serves the interests of the state. To meet this requirement, the director has adopted environmental and social mitigation measures that will be enforced throughout the duration of the lease. These mitigation measures are necessary to protect biological, cultural and archeological resources, and to mitigate social impacts of lease related activities. Enforcement will be imposed through approval of plans of operations, exploration and development and other permits. DO&G will review these plans for consistency with the ACMP under 6 AAC 50. The lessee must obtain all the necessary permits and approvals otherwise required by law or regulation for the proposed activity. Additional restrictions may be imposed through the permitting process and the ACMP review process.

Sale Terms

Bidding Method:
The bidding method for all tracts in North Slope Foothills Area wide 2002 will be cash bonus bidding with a minimum bid of five dollars ($5) per acre.

Royalty Rate:
All leases will have a fixed royalty rate of twelve and one half percent (12.5%).

Length of Lease:
All leases will have an initial primary term of ten (10) years.

**Bonding**

Before beginning lease operations, an oil and gas lease bond of a minimum of $10,000 per operation is required under 11 AAC 83.160. In the alternative, a statewide oil and gas lease bond of a minimum of $500,000 for operations conducted on more than one lease may be filed. These bonding provisions do not affect the commissioner's authority to require additional unusual-risk bonds as may be necessary. In addition, the Alaska Oil and Gas Conservation Commission (AOGCC) requires a bond of at least $100,000 for a single well or a bond of at least $200,000 to cover wells statewide before drilling operations will be permitted by AOGCC.
