Cook Inlet Oil and Gas Activity
State of Alaska, Department of Natural Resources, Division of Oil and Gas, December 2013

Cook Inlet Energy
Converted request for exploration license acreage to lease upon fulfilling work commitment; plan to drill up to two gas wells on the Kato Creek prospect.

Division of Oil and Gas
Areawide lease sales tentatively scheduled for May 2014, encompassing approximately 4 million acres in Cook Inlet and 5.8 million acres in Alaska Peninsula.

Aurora Gas
Plan to drill two wells and workover a third; expects an average production increase of 3 MCF per day per well.

Cook Inlet Energy
Completed Sword No. 1 exploratory well, testing 882 BOEPD from Hemlock zone and shallower Tyonek gas sands.

ConocoPhillips
Applied for LNG export license from DOE; with shipment of up to 40 BCF over two years from restarted Nikiski facility.

Centrale Gas
Considering restart of Nikiski fertilizer plant; applied for new air quality permit.

Apache
Plan continued 3-D seismic acquisition across their acreage throughout Cook Inlet.

Buccaneer
Drilled Cosmopolitan State No. 1 from Endeavor jack-up; tested two Tyonek Fm gas zones and encountered Lower Tyonek oil sands shallower than penetrated in previous wells on prospect.

ConocoPhillips
Farmed out deep oil rights at North Cook Inlet Unit to Buccaneer Energy; first well to be drilled by end of 2014.

Fuji
Plan to install gas production platform next year and moving gas onshore by fourth quarter 2014; suspended drilling of Kitchen Lights Unit No. 4 well for winter and will re-enter next year; Spartan 151 jack-up moved to Port Graham for winter.

NordAg Energy
Alaska Department of Natural Resources granted permission to build an all-season gravel road across state land; U.S. Fish & Wildlife Service signed record of decision giving access to the proposed Shadura development.

Buccaneer
Recently renamed wells to reflect their pad number; drilled Kenai Loop No. 1-4, determined gas producing Tyonek 9700’ sand to be in pressure communication with No. 1-1 and 1-3.

Hilcorp
Expanding production at many legacy fields; offering utilities gas to meet contracts through first quarter 2018. RCA will sponsor a settlement conference to attempt to consolidate four Cook Inlet pipelines into one system.

Cook Inlet Energy
Acquiring North Fork field from Armstrong; transaction expected to close in first quarter 2014.

Department of the Interior - BOEM
Cook Inlet OCS sale 244 scheduled for 2016; to offer 1.17 million acres north of approximately 59.45 degrees North latitude.

Nancy Lake State Recreation Area

Susitna Flats State Game Refuge

Cook Inlet Critical Habitat Area

Redoubt Bay

Cook Inlet Energy
Oiler Unit approved retroactive to September 27, 2013 under a modified Unit Agreement and Plan of Exploration.

ConocoPhillips
Converted requested exploration license acreage to lease upon fulfilling work commitment; plan to drill up to two gas wells on the Kato Creek prospect.

Tustumena
Spartan 151 jack-up moved to Port Graham for winter.

ConocoPhillips
Recently renamed wells to reflect their pad number; drilled Kenai Loop No. 1-4, determined gas producing Tyonek 9700’ sand to be in pressure communication with No. 1-1 and 1-3.

Buccaneer
