Cook Inlet Energy Plans to drill up to two gas exploration wells on the Koko Creek prospect, located in Susitna Basin Exploration License No. 2, winter 2013-2014.

Apache

Aurora Gas

ConocoPhillips

Hilcorp

Apache

Moving to rework RU-1; will involve abandoning the lower part of the well and drilling a sidetrack; expect to be completed early August.

ConocoPhillips

Four cargo shipments from Nikiski to Asia in 2012. Export license expired March 31, 2013.

Hilcorp

Currently planning for the development of the Ninilchik Unit includes gas well workovers and potential future testing of deeper oil prospectivity.

Hilcorp

Acquired a 3-D seismic survey in and around Deep Creek Unit; estimate resources to be 3-4 times larger than current participating area.

Buccaneer

Drilled Cosmopolitan 1, the first well drilled using the Endeavour jack-up rig; planing Lower Tyonek flow test.

Hilcorp

Current Plan of Development for Ninilchik Unit includes gas well workovers and potential future testing of deeper oil prospectivity.

Hilcorp

Offering utilities gas to meet contracts through 2017; evaluating consolidation of four Cook Inlet pipelines into one system.

Buccaneer

Drilled their first Cook Inlet well, Kaldachabuna 2 on CIRI acreage.

Furie

Completed drill stem testing at Kitchen Lights Unit No. 3 well; plans to move Spartan 151 jack-up to No. 4 well; moving forward with plans to install monopod platform to develop offshore gas.

Aurora Gas

Plans to drill two wells and workover a third; expects an average production increase of 3 MCF per day per well.

ConocoPhillips

Farming-out the rights to develop deep oil prospects at North Cook Inlet Unit to Buccaneer Energy; first well to be drilled by end of 2014.

NordAq Energy

U.S. Fish & Wildlife Service signed record of decision giving access to the proposed Shadura development.

Buccaneer

Recently renamed wells to reflect their pad number; permitting additional wells.

ConocoPhillips

Farming-out the rights to develop deep oil prospects at North Cook Inlet Unit to Buccaneer Energy; first well to be drilled by end of 2014.

Furie

Completed drill stem testing at Kitchen Lights Unit No. 3 well; plans to move Spartan 151 jack-up to No. 4 well; moving forward with plans to install monopod platform to develop offshore gas.
