RE: LONS 97-007 and 09-009, ConocoPhillips Alaska, Inc., Colville River Unit, Kuukpik Pad, Temporary Camp Unit Plan of Operations Amendment Decision

Dear Mr. Thomas:

The Alaska Department of Natural Resources, Division of Oil and Gas (Division), in accordance with Alaska Statute 38.05 and Alaska Oil and Gas Leasing Regulations (11 AAC 83) grants authorization to conduct activities on lands within the Colville River Unit (CR) as described in the Plan of Operations (Plan) amendment application dated November 29, 2018 for the above referenced project.

Scope:

CPAI proposes the installation of new infrastructure as well as the use of the existing temporary camp at Kuukpik Pad in support of new and ongoing oil and gas activities within the CR for the Alpine Development currently authorized under two separate Plan of Operations. The use of infrastructure on Kuukpik Pad will support operations and construction activities for the Colville Delta No. 1 (CD1), CD2, CD3, and CD4 pads under LONS 97-007. The same infrastructure will also support activities at the CD5 pad under LONS 09-009. The use of new and existing infrastructure will facilitate the storage and staging of materials and equipment.

The existing camp will remain in place and CPAI will continue use of existing modules and facilities. The existing man camp will be reconfigured and expanded to support construction activities, as well as to accommodate the installation of new structures for the storage and staging of materials and equipment. Structures to be installed will include equipment shops, Conexes, and other warehouse modules.

All activities connected to the use of existing modules, restacking of the man camp, and the installation of new infrastructure for storage and staging will occur on the existing Kuukpik Pad.

The proposed project work is scheduled to begin upon receiving authorization and will continue until December 31, 2026.

Plan activities include:

- **LONS 97-007:** Utilize existing camp and install additional structures on Kuukpik Pad for temporary construction camp. Infrastructure will support operations and construction activities at CD1, CD2, CD3, and CD4.
- **LONS 09-009:** Utilize existing camp and install additional structures on Kuukpik Pad for temporary construction camp. Infrastructure will support operations and construction activities at CD5.
