Seismic Data Release Status

Seismic survey, showing data coverage:

<table>
<thead>
<tr>
<th>Survey Type</th>
<th>Release Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>3D survey</td>
<td>Survey released and available at Geological Materials Center</td>
</tr>
<tr>
<td>2D survey</td>
<td>Other survey with tax credit certificate, statutory confidentiality period still in effect; survey not yet eligible to be and prepared for release (see notes 2, 3, and 5)</td>
</tr>
</tbody>
</table>

Criteria:
- Survey released and available at Geological Materials Center 
- Other survey with tax credit certificate, statutory confidentiality period still in effect; survey not yet eligible to be and prepared for release (see notes 2, 3, and 5)

Notes:
1. This map is intended as a current snapshot of information that can be disclosed publicly regarding tax credit seismic surveys.
2. Representation on the map does not guarantee public release and is subject to statutory requirements in effect at the time of data acquisition and application for tax credit.
3. Release is subject to public notice and permission of private oil and gas mineral estate owner where applicable. Some surveys require clipping to mineral ownership boundaries; actual map extents of released datasets may differ from those shown here.
4. Year label denotes expiration of statutory confidentiality period, not necessarily the year in which the data will be ready for distribution or release.
5. Map does not include surveys whose initial seismic processing was completed more than 10 years ago but prior to legislative adoption of the disclosure clause of AS 43.55.025(f)(5). Seismic surveys acquired with credits under AS 43.55.023 are not subject to disclosure under .025(f)(5), and cannot be represented here until their confidentiality period has expired.
6. Additional qualifying surveys will be added to this map as new tax credit certificates are issued or as changes in confidentiality status allow.

Map updated: June 2020
