4. Year label denotes expiration of statutory confidentiality period, not necessarily the year in which the data will be ready for distribution; surveys can be subject to confidentiality beyond the statutory period.

3. Release is subject to public notice and permission of private oil and gas mineral estate owner where applicable. Some surveys will be released subject to a 25-year confidentiality period.

2. Survey data are compiled from information collected through the systematic performance of surveys in the United States and are subject to confidentiality under Federal law until their confidentiality period has expired. Some surveys have not been collected and data sets related to those surveys are not available for release until their confidentiality period has expired. Some surveys have already been released subject to confidentiality.
