Title 11, Alaska Administrative Code, Chapter 83, Oil and Gas Leasing

11 AAC 83.241(a) is amended to read:

11 AAC 83.241. Production tax lease allowance. (a) The production tax lease allowance for purposes of 11 AAC 83.240(b) is the greater of zero or the amount **resulting from subtracting (3) and (4) from** [CALCULATED BY SUBTRACTING THE TAX CREDITS, IF

ANY, UNDER (b) OF THIS SECTION FROM] the greater of **(1) and (2), where (1)-(4) are defined as follows** [THE FOLLOWING TWO AMOUNTS]:

(1) the sum of

(A) the monthly production tax net revenue under (c) of this section multiplied by the net profit deductibility factor under (e) of this section multiplied by

(i) 22.5 percent, for a month before July 2007;

(ii) 25 percent, for a month after June 2007 and before January

2014; or

(iii) 35 percent, for a month after December 2013; and

(B) the lease-allocated tax based on price index under (d) of this section;

(2) the product of

(A) the percentage rate that would be applicable under AS 43.55.011(f)(1) — (5) if the phrase “calendar year” were replaced by the phrase “month of production,” based on the average spot price during the month as calculated under 15 AAC 55.171(m) for ANS; and

(B) the production revenue under 11 AAC 83.222 less the royalty owed to the state under 11 AAC 83.242.

(3) the product of the net credit augmentation factor under (f) of this section and the tax credits, if any, under (b) of this section;

(4) the product of

(A) the net credit augmentation factor under (f) of this section,

(B) 35 percent, and

(C) if there is oil or gas production from the NPSL meeting one or more criteria under AS 43.55.160(f), then .2 times the amount resulting from the lessee's production revenue generated by that production under 11 AAC 83.222 net of the lessee's royalty payments generated by that production under 11 AAC 83.242.

11 AAC 83.241(b) is amended to read:

11 AAC 83.241. Production tax lease allowance.

(b) The tax credits for purposes of (a) of this section are

(1) the product of

(A) the fraction obtained by dividing the amount of oil and gas in Btu-equivalents produced by the lessee from the NPSL during the month and taxable under AS 43.55.011(e), by the amount of Btu-equivalents of oil and gas produced by the lessee statewide during the month and taxable under AS 43.55.011(e); and

(B) 1/12 of the maximum amount of the tax credit for the calendar year calculated under AS 43.55.024(c)(1) or (2), as applicable, but substituting in that calculation the lessee's average amount of oil and gas in Btu-equivalents, as defined in 11 AAC 83.295, produced a day statewide during the month and taxable under AS 43.55.011(e), for the lessee's average amount of oil and gas in BTU equivalent barrels, as defined in AS 43.55.900, produced a day statewide during the calendar year and taxable under AS 43.55.011(e);

(2) for a month after December 2013, the product of \$5 and the number of barrels, if any, of oil, other than state royalty oil, produced from the NPSL during the month that meets one or more of the criteria in AS 43.55.160(f) **and have not expired under AS 43.55.160(f)**;

(3) for a month after December 2013, the smaller of

(A) the product of the number of barrels, if any, of oil, other than state royalty oil, produced from the NPSL during the month that does not meet any of the criteria in AS 43.55.160(f) and the dollar per barrel amount that would be applicable under AS 43.55.024(j)(1) – (9), if the phrase “average gross value at the point of production” were replaced by the phrase “NPSL production revenue under 11 AAC 83.222 attributable to oil other than state royalty oil, divided by the number of barrels of oil, other than state royalty oil, produced from the NPSL”; or

(B) the greater of zero, or the following amount:

A minus B minus C, where

“A” equals the greater of the amounts calculated under (a)(1) and (2) of this section;

“B” equals the total amount of tax credits under (1) and (2) of this subsection; and

“C” equals the amount calculated under (a)(2) of this section.

11 AAC 83.241(c) is amended to read:

11 AAC 83.241. Production tax lease allowance.

(c) For purposes of 11 AAC 83.209(b) and (a) of this section, the monthly production tax net revenue equals the lessee's production revenue under 11 AAC 83.222 net of the lessee's royalty payments under 11 AAC 83.242, except that for a month after December 2013, the lessee's production revenue under 11 AAC 83.222 net of the lessee's royalty payments under 11 AAC 83.242 is only for purposes of (a) of this section multiplied by 0.8 for oil and gas that

meet one or more of the criteria in AS 43.55.160(f) **and have not expired under AS**

43.55.160(f) less the following amounts:

(1) the lessee's direct operating costs during the month under 11 AAC 83.240, excluding the production tax lease allowance under (a) of this section and abandonment costs allowed under 11 AAC 83.240(e); however, if the NPSL is within a unit subject to AS 43.55.165(j), for purposes of the calculation under this paragraph the lessee's direct operating costs during the month are replaced by one-ninth of the lessee's direct operating costs during the period April 1, 2006, through December 31, 2006, multiplied by the following factor:

- (A) 1.03 for a month in 2007;
- (B) 1.061 for a month in 2008;
- (C) 1.093 for a month in 2009; and

(2) the lessee's development costs under 11 AAC 83.219 incurred during the month less the product of \$.30 multiplied by the amount of the lessee's working interest Btu-equivalents of oil and gas produced from the NPSL during the month, including any overriding royalty share of oil and gas but not including the state's royalty share of oil or gas.

11 AAC 83.241 is amended by adding a new subsection to read:

11 AAC 83.241. Production tax lease allowance.

(f) For purposes of (a) of this section,

(1) if

(A) the development account beginning debit balance less the monthly production tax net revenue under (c) of this section, if any, is negative; and

(B) D is greater than E, where

“D” is the product of the monthly production tax net revenue under (c) of this section, 35 percent, and the NPDF; and

“E” is the amount calculated in (a)(2); and

(C) D is greater than the sum of the amounts calculated in (b)(1), (b)(2), and (b)(3);

then the net credit augmentation factor is calculated according to the following formula:

$$\text{NCAF} = 1 / (1 - (.35 * \text{NPR})), \text{ where}$$

“NCAF” equals the net credit augmentation factor; and

“NPR” equals the net profit share defined in the lease expressed as a fixed percentage of the net profit payment account.

(2) otherwise the net credit augmentation factor equals one for a month.
