RE: Request for Right-of-Way Lease Amendment
ADL 416202
Nuiqsut H₂S Scrubber

Dear Mr. Grundman:

The North Slope Borough Department of CIPM is proposing to install a natural gas processing skid on the Alpine Development pad North of Nuiqsut. Installation of this skid will increase the safety of the gas delivered to Nuiqsut by removing Hydrogen Sulfide (H₂S) from the gas stream.

I would like to provide the accompanying project details while making a formal request to amend the existing Right-Of-Way Lease for the Nuiqsut Natural Gas Pipeline (ADL 416202).

Included are a detailed scope of work and drawings depicting the proposed location of the new facility and temporary work areas. The proposed skid will be located in Township 11N, Range 5E, Section 5, Umiat Meridian.

As you have requested in recommending pursuit of this Lease Amendment, as the project progresses the North Slope Borough will provide additional information such as as-built information, schedules, engineered drawings, etc. as it becomes available.

In addition to this Lease Amendment Request, coordination with ConocoPhillips, Kuukpik Corporation and the North Slope Borough Planning Department has been on-going and will continue.

December 13, 2017
