NOTICE OF RIGHT-OF-WAY AMENDMENT APPLICATION  
TRANS-ALASKA PIPELINE SYSTEM – ADL 63574  
BURIED SILLS ADDITION NEAR PIPELINE MILEPOST 19.5

The Commissioner of the Department of Natural Resources, pursuant to Alaska Statute (AS) 38.35.070, hereby gives notice that Alyeska Pipeline Service Company (APSC) submitted a request to amend the Trans-Alaska Pipeline System (TAPS) Right-of-Way Lease, ADL 63574, to add approximately 4.5 acres of land in the Sagavanirktok River floodplain.

The purpose of the request is to add lands to the TAPS Right-of-Way Lease to construct approximately three new buried sills in the uplands to prevent additional erosion by the Sagavanirktok River towards the buried pipeline. The proposed buried sills are adjacent to Dalton Highway milepost 398 and near TAPS pipeline milepost 19.5. The proposed buried sills are south of a field of existing buried sills. Adding these buried sills will protect the integrity of the pipeline by reducing the risk of flood-related damage.

The land is generally described as: buried sills located within W2NW4 Section 4 and E2NE4 Section 5, Township 7 North, Range 14 East, Umiat Meridian; containing an area 720 ft. x 275 ft., approximately 4.5 acres.

The application is available at the Division of Oil and Gas newsroom website: <http://dog.dnr.alaska.gov/Home/Newsroom>. The public may obtain hard copies of the application, at cost, from the State Pipeline Coordinator's Section (SPCS).
