## 11. Transaction Set 185 Mapping Matrix Of An Alaska Royalty Payment Summary Report

The following mapping matrix cross-references the data Transaction Set 185 elements with the form DNR-DO&G A-1 elements. A table illustrating the detailed data lines example for the completed report example is in Part 10. The mapping matrix in the following table illustrates the format of the Transaction Set 185 used to report the Alaska Royalty Payment Summary Report.

To determine where an Alaska Royalty Valuation Report element is placed in DTS 185, use the column titled Alaska Form Element. The columns titled Data Element Name and Expected Values illustrate which ASC X12 segment, elements and qualifier codes you should use for the Data Element Name and associated Alaska Form Element. The Example column corresponds to the first data lines shown in the detailed data lines example following the mapping matrix.
