The land status depicted in this map book was derived from land ownership information contained in data sources acquired from the Alaska Department of Natural Resources (DNR), the Bureau of Land Management (BLM) and the Fairbanks North Star, Mat-Su and Denali Boroughs. Additional as-built data from the Alaska Department of Transportation was also utilized. The complete administrative land status record from the BLM and DNR, which describes less-than-fee third-party interests, is not depicted with the exception of major, developed rights-of-way and easements. The effective dates of the depicted data are as follows: DNR - September 23, 2013; BLM - August 28, 2013; Mat-Su and Fairbanks North Star Boroughs - July 15, 2013, and Denali Borough - January 2011. The data used for the depiction of the various electric transmission line segments of the Alaska Intertie was obtained from the Alaska Energy Authority on April 15, 2015. AEA makes no representation as to the location accuracy of the depicted segments of the Alaska Intertie. Water features are depicted per the National Hydrography Dataset as of March 3, 2014. The route of the Trans-Alaska Pipeline was received by DNR from Alyeska Pipeline Service Company via the State Pipeline Coordinator's Office and is current as of 1/19/2012.
