Land Classifications

The Donlin Gold Pipeline project area transects eight land use classifications. The table below contains basic information concerning these eight classifications.

Regulation	Title	Regulation Summary
11 AAC 55.050	Agriculture Land	Land that is suitable for agricultural development and is intended for present or future agricultural use.
11 AAC 55.070	Forest Land	Land that is suitable for forest management based on its physical, climatic, and vegetative conditions.
11 AAC 55.130	Mineral Land	Land where mineral resources are known to exist and development is likely to occur, or where commercial quantities of minerals are believed to exist.
11 AAC 55.160	Public Recreation Land	Land that is suitable for recreation uses such as hiking, camping, boating, or hunting.
11 AAC 55.200	Resource Management Land	Land that contains one or more resource values however no specific resource merits designation over another.
11 AAC 55.202	Settlement Land	Land that has been identified by the State as suitable for private or commercial development.
11 AAC 55.222	Water Resource Land	Land that encompasses watersheds which are suitable for uses such as water supply, watershed protection, or hydropower sites.
11 AAC 55.230	Wildlife Habitat Land	Land that is primarily valuable for fish and wildlife resource production to support commercial, recreational, or traditional uses or has a unique/rare species of regional, state, or national significance.

The following pages contain a table listing the applicable MTRS, classification, and Area Plan information.
