Subject: Plan of Operations questions

Hi Bob-

Thanks for taking the time to chat yesterday. I spent a bit more time looking through the proposed changes to 11 AAC 158, and I had two more questions, that hopefully will help me in my comments.

1. How does changing the decision-maker (from "commissioner" to "department") change the process for approval and public comment?
2. In listing statutory authority for this part of the proposed changes, the reference to AS 38.05.133 is deleted. Why?

Thanks for your help!
