Subject: RE: Plan of Operations questions

Bob-

Thanks for your response, although I'm still at a bit of a loss. My understanding is that the bulk of the proposal is related only to area-wide leases. My interest is focused on impacts to exploration licenses. I understand that the proposed changes to 11 AAC 158 would be directly related to exploration licenses, but it's unclear to me what the proposed changes would accomplish, and how the plan of operations permitting process would change if this proposal is adopted. It would be helpful to get a response to my questions so that I can develop my comments. Do you know of anyone else I could ask?

Thanks again.

Hannah

Hannah,

Thank you for following up on our conversation of July 23 where you posed questions about the new regulations and leaving me a voice mail and e-mailing these questions yesterday. During the public comment period, it is best for you to pose these questions as your comments so they can be considered in the proposed regulation review. For background information, I have attached the Dear Alaskan letter to provide background in support of your questions and comments.

Thank you for your interest in these proposed regulations.

Bob Pawlowski

Subject: Plan of Operations questions

Hi Bob-

Thanks for taking the time to chat yesterday. I spent a bit more time looking through the proposed changes to 11 AAC 158, and I had two more questions, that hopefully will help me in my comments.

1. How does changing the decision-maker (from "commissioner" to "department") change the process for approval and public comment?
2. In listing statutory authority for this part of the proposed changes, the reference to AS 38.05.133 is deleted. Why?

Thanks for your help!

Hannah Ragland
