Subject: Oil and Gas Regulations

I believe that both the qualifications rules (11 AAC 82.200-82.205--both the rules relating to oil and gas and the rules relating to mining) and the assignment rules (11 AAC 82.605-82.630) should be examined and improved as part of any regulatory improvement effort. I thus hope the project will not be limited to reviewing 11 AAC 83.
