

**ADL 418997**  
**ALASKA STAND ALONE GAS PIPELINE/ASAP**  
**RIGHT-OF-WAY LEASE**

**ATTACHMENT A: LEGAL DESCRIPTIONS FOR**  
**REQUESTED LANDS**

The lands requested to be amended for the Right-of-Way Lease for the Alaska Stand Alone Gas Pipeline/ASAP include the following additions and deletions for the related facilities and pipeline realignment:

**1. Gas Conditioning Facility (GCF) Pad:**

**Location:** Section 10, Township 11 North, Range 14 East, Umiat Meridian

The Gas Conditioning Facility (GCF) Pad is estimated at approximately 100 acres in size which includes the process facility, operations and maintenance pad, and flare(s) (See #1 in Figure 1).

**2. GCF Construction and Operations Camp Pad:**

**Location:** Section 4, Township 11 North, Range 14 East, Umiat Meridian  
Section 9, Township 11 North, Range 14 East, Umiat Meridian  
Section 10, Township 11 North, Range 14 East, Umiat Meridian

The GCF Construction (temporary)/ Operations (permanent) Camp Pad would be approximately 23 acres in size and located approximately 1,200 feet northwest of the GCF Pad. Temporary facilities used to support construction include construction offices, safety training center, tool room, piping and electrical warehouse, structural and sheet metal shop, material receiving office, incinerator, diesel fuel storage and dispensing, and power generation. Temporary facilities will be dismantled and removed after the GCF startup.

Permanent facilities include an Operations warehouse, Operations cold storage, Operations center and laboratory, and maintenance shop.

The Construction/Operations Camp Pad will include a standalone construction camp and a sewage treatment plant. Power generation equipment installed to supply power for the GCF Construction/Operations Camp during construction may be retained as part of the permanent power generation capacity for the GCF and the Operations Camp. (See #2 in Figure 1).

**3. GCF In-Plant Road from Camp to the GCF:**

**Location:** Section 10, Township 11 North, Range 14 East, Umiat Meridian

The GCF In Plant Road would be constructed as a new gravel access road 50 feet wide and 775 feet long (0.9 acres). This road would connect the GCF Construction/Operations Camp to the GCF Pad and would be used for regular vehicle access. (See #3 in Figure 1).

**4. Road South from GCF to West Dock Road:**

**Location:** Section 10, Township 11 North, Range 14 East, Umiat Meridian  
Section 14, Township 11 North, Range 14 East, Umiat Meridian  
Section 15, Township 11 North, Range 14 East, Umiat Meridian

A new gravel road 50 feet wide and 7,950 feet long (9.2 acres) will be developed on the south side of the GCF Pad to connect with the existing road network in the Prudhoe Bay Unit (PBU). (See #4 in Figure 1)

**5. Road East to Central Gas Facility (CGF):**

**Location:** Section 10, Township 11 North, Range 14 East, Umiat Meridian  
Section 11, Township 11 North, Range 14 East, Umiat Meridian

A new gravel road approximately 50 feet wide and 2,380 feet long (2.7 acres) would be constructed on the east side of the GCF to connect to the existing CGF (See #5 in Figure 1).

**6. Pipelines between CGF and GCF:**

**Location:** Section 10, Township 11 North, Range 14 East, Umiat Meridian  
Section 11, Township 11 North, Range 14 East, Umiat Meridian

Multiple pipelines would be constructed to transfer natural gas and the byproduct between the CGF and GCF. The construction right-of-way for these pipelines would be a combined width of 70 feet and a length of 4,220 feet (6.8 acres) (See #6 in Figure 1).

**7. Pipeline Milepost 03, Original Alignment Vacated**

**Location:** Section 11, Township 11 North, Range 14 East, Umiat Meridian  
Section 14, Township 11 North, Range 14 East, Umiat Meridian  
Section 15, Township 11 North, Range 14 East, Umiat Meridian  
Section 22, Township 11 North, Range 14 East, Umiat Meridian  
Section 27, Township 11 North, Range 14 East, Umiat Meridian  
Section 28, Township 11 North, Range 14 East, Umiat Meridian

The first 3 miles (MP 0-3) of the ASAP right-of-way has been moved west of the original location approximately one mile due to the placement of the GCF Pad (See #7 in Figure 1). This segment from the right-of-way is vacated and replaced with the alignment described in #8 below.

**8. Pipeline Milepost 0 —3, New Alignment:**

**Location:** Section 10, Township 11 North, Range 14 East, Umiat Meridian  
Section 15, Township 11 North, Range 14 East, Umiat Meridian  
Section 16, Township 11 North, Range 14 East, Umiat Meridian  
Section 21, Township 11 North, Range 14 East, Umiat Meridian  
Section 28, Township 11 North, Range 14 East, Umiat Meridian

The ASAP right-of-way from MP 0-3 has been realigned west of its original location to commence at the GCF Pad. The realignment of MP 0 to MP 3 originates at the GCF and travels in a southerly direction and connects with the original pipeline route at approximately MP 3.2 (See #8 in Figure 1).

The new alignment and the related facilities described above will be located and situated on the State land generally depicted on Figure 1 of this Attachment.

All distances and acreages are approximations based on the Applicant's description of the right-of-way.

Per Section 23(d) of the Lease the Lessee may relinquish to the State any part or all of the Leasehold that the Lessee determines is no longer necessary for Pipeline Activities. Section 23 outlines the process by which a release of interest is to take place. At the time the release of interest is approved and the required As-Built is finalized, the approved As-Built will reflect the final legal description of the lease.
