NOTICE OF APPLICATION UNDER AS 38.35.070
ALASKA GASLINE DEVELOPMENT CORPORATION
RIGHT-OF-WAY LEASE APPLICATION
DATED MARCH 21, 2011

The Commissioner of the Department of Natural Resources, pursuant to AS 38.35.070, hereby gives notice that the Alaska Gasline Development Corporation (AGDC) submitted a revised application dated March 21, 2011, in accordance with the Alaska Right-of-Way Leasing Act, AS 38.35.050, for a proposed Alaska Stand Alone Gas Pipeline/ASAP (ASAP) right-of-way lease.

The Alaska Gasline Development Corporation has applied for a right-of-way lease proposing to transport natural gas and natural gas liquids (NGL's) from the North Slope to the Cook Inlet Area in Southcentral Alaska. The 24" pipeline will originate in Prudhoe Bay and follow the Trans Alaska Pipeline System (TAPS) and Dalton Highway corridors, generally paralleling the highway corridor from the North Slope to near Livengood, northwest of Fairbanks. At Livengood, the pipeline route heads south, joining the Parks Highway corridor west of Fairbanks near Nenana. From there it generally continues south and terminates at milepost (MP) 737. It will connect at MP 39 of the Beluga Pipeline west of Wasilla. The proposed 737 mile long pipeline will be located across a variety of lands. The approximate length that will be located on land owned by the State of Alaska is 427 miles.

A 12" lateral pipeline to Fairbanks (Fairbanks Lateral) is proposed to take off from the main pipeline just a few miles north of Nenana at Dunbar. The Fairbanks Lateral is proposed to travel northeast to Fairbanks, a distance of approximately 35 miles.

The Alaska Gasline Development Corporation has requested in general 100-foot-wide right-of-way for construction of the pipeline and a 30-foot-wide permanent right-of-way.

The public may obtain printed copies of the application and additional information, at cost, from the State Pipeline Coordinator's Office:

State Pipeline Coordinator's Office
411 West 4th Avenue, Suite 2C
Anchorage, AK 99501-2343
