

STATE OF ALASKA  
DEPARTMENT OF NATURAL RESOURCES  
STATE PIPELINE COORDINATOR'S OFFICE

COMMISSIONER'S ANALYSIS AND PROPOSED DECISION  
ALASKA GASLINE DEVELOPMENT CORPORATION RIGHT-OF-WAY LEASE  
AMENDMENT

The Commissioner of the Department of Natural Resources received an application, dated January 10, 2014, from the Alaska Gasline Development Corporation, lessee for the Alaska Stand Alone Gas Pipeline/ASAP, ADL 418997, for a pipeline right-of-way lease amendment. The proposed amendment would change the pipeline design from a 24-inch diameter high pressure pipeline to a 36-inch diameter lean gas pipeline with a maximum allowable operating pressure of 1,480 psi, and revise the lease to reflect recent legislative amendments to Alaska Statute 38.35.

The Alaska Gasline Development Corporation also requested additional lands on the North Slope for facilities associated with the project. The request included:

- 100 acres for a gas conditioning facility pad;
- 23 acres for a construction and operations camp pad for the gas conditioning facility;
- Three roads totaling 12.8 acres, connecting the camp to the gas conditioning facility and existing haul road and central gas facility;
- An additional pipeline right-of-way, approximately 6.8 acres in size, for multiple pipelines connecting the gas conditioning facility to the existing central gas facility and;
- Alignment changes between pipeline mileposts 0 – 3.

In accordance with Alaska Statute 38.35.080, the Commissioner has prepared an analysis of the application and a proposed decision. The public is invited to comment on the Commissioner's Analysis and Proposed Decision. All comments must be submitted in writing to the State Pipeline Coordinator's Office (SPCO) before 5:00 p.m. on September 8, 2014.

If no significant change is required, then the proposed decision, including any minor changes, will be issued without further notice as the final decision of the Department of Natural Resources after September 12, 2014.

The public may obtain printed copies of these documents, at cost, from the SPCO. The documents are also available at the SPCO website: <http://dnr.alaska.gov/commis/pco>.
