

**NOTICE OF ANALYSIS AND PROPOSED DECISION
TRANS-ALASKA PIPELINE SYSTEM, ADL 63574
SPUR DIKE NO. 1 EXTENSION AT SAGAVANIRKTOK RIVER**

The Alaska Department of Natural Resources (DNR), pursuant to Alaska Statute (AS) 38.35.080, hereby gives notice that DNR has prepared an Analysis and Proposed Decision for a request submitted by Alyeska Pipeline Service Company (APSC) to amend the Trans-Alaska Pipeline System (TAPS) Right-of-Way (ROW) Lease, ADL 63574. DNR proposes to add lands to the TAPS ROW approximately 22.5 miles south of Pump Station 1 in Deadhorse, Alaska.

This project is a continuation of efforts by APSC to protect TAPS from current and future flood events and ongoing erosion along the Sagavanirktok River through upgrades to the spur dike system in the area. The proposed construction ROW is near TAPS Pipeline Milepost 22.5 near Spur Dike 1 and is approximately 355 feet long by 170 feet wide, containing approximately 1.4 acres. The project is located within the NE1/4NE1/4 of Section 19, Township 7 North, Range 14 East, Umiat Meridian.

The public is invited to comment on the Analysis and Proposed Decision. Comments must be submitted in writing the address below before 5:00 p.m. on June 1, 2021. If the public comment indicates the need for significant changes in the proposed decision, then additional public notice will be given on or after June 1, 2021. If no significant changes are required, then the proposed decision, including any minor changes, will be issued without further notice as the final decision after June 1, 2021.

The public may obtain copies of these documents, at cost, from the address below. The documents are also available online at: <http://dog.dnr.alaska.gov/Home/Newsroom>.
