Awarded Northwest Mount Spurr Noncompetitive Geothermal Prospecting permit; applicant has until August 23, 2021 to accept.

Hilcorp Alaska, LLC
Division approved 2021 plan of development for North Cook Inlet Unit. Plan to utilize Spartan 151 jack-up or similar unit for supplemental development drilling by cantilevering it over the existing Tyonek production platform.

HEX Cook Inlet
March 7, 2021, AOGCC approved to modify the status of exploration wells KLU 1, KLU 1A and KLU 4 from "Suspended" to "Plug and Abandoned". Site clearance required.

Ocean Renewable Power Co.
Filed preliminary permit application with the Federal Energy Regulatory Commission to develop a tidal energy power generation system offshore East Foreland. Initial plans are for a 5 MW pilot project to verify technical performance and environmental compatibility. Project results will assist in planning a phased build-out of up to a 100 MW commercial-scale project. Once operational, Homer Electric Association, Inc. plans to purchase the total energy produced.

Hilcorp Alaska, LLC
Received permission under amended LOCI 94-007 to replace approximately 4,100’ section of 8-inch sub-sea oil pipeline connecting the Monopod Platform to the Trading Bay Production Facility. The section will be abandoned in place after appropriate cleaning activities.

Cook Inlet Energy, LLC
Division approved Suspension of Operations and Production (SOP) for May 1, 2021 through October 31, 2021 and extended the 20th Plan of Development (POD) six months.

Hilcorp Alaska, LLC
Division approved Hilcorp’s Lease Plan of Operations to enter the exploration phase of the Whiskey Gulch project, including construction of a gravel pad and drilling two wells.

Hilcorp Alaska, LLC
Requested an Extension of Confidentiality of Seaview No. 8 on January 20, 2021. The Division granted the request on April 6, 2021.

Hilcorp Alaska, LLC
Submitted an application with BOEM for a geohazards survey permit in January 2021. The proposed survey would be approximately 35 miles west of the Homer Airport.

Hilcorp Alaska, LLC
Requested to Terminate the Nikolai North Unit on April 27, 2021. The Division approved the request on May 3, 2021. Hilcorp will continue to produce the Unit No. 1 well from two leases it currently drains on a tract basis “under the existing lease terms”.

Hilcorp Alaska, LLC
Requested to delay contraction of the North Fork Unit for a one-year period. The Division approved the request, and the delay is until April 6, 2022.

Cook Inlet Energy, LLC
Notified the Division on November 25, 2020 that it is resigning as operator of the North Fork Unit and designating Gardes Holding, Inc. On May 11, 2021 Gardes notified the Division that it is resigning as operator of North Fork Unit and CIE and designating Vision Operating, LLC. In May 2021, the Division approved Vision Operating, LLC, a new entrant into Alaska, as operator of the North Fork Unit.

Hilcorp Alaska, LLC
Issued a call for Public Comments and Competing Proposals for Augustine Island Geothermal Exploration for Augustine Island, including some tidelands and adjacent waters within approximately 3 miles of the island, and excludes nearshore tidelands of the mainland to the west. The area contains about 65,992 acres divided into 26 tracts, ranging from 2,489 to 2,560 acres. For more information visit: https://aws.state.ak.us/OnlinePublicNotices/NoticesView.aspx?id=203019
