ADDITIONAL INFORMATION FOR PROSPECTIVE BIDDERS

The Division of Oil and Gas would like to point out that due to the resolution of U.S. v. Alaska, Original 84, the State/Federal Boundary, as reflected on the Regional Tract Map dated August 2001, has shifted in some areas. *This shift has created small slivers of unleased acreage within some of the tracts.*

Additionally, the federal lease acreage on the map is current as of June 30, 1999. Some of the acreage within the sale boundary shown to be under federal lease (as a result of the boundary shift) may be available for lease due to the expiration of federal leases.

Bidders should verify land status within tracts of interest before making bid decisions.
