SALE ANNOUNCEMENT

STATE OF ALASKA

NORTH SLOPE AREAWIDE 2000 COMPETITIVE OIL AND GAS LEASE SALE

The Department of Natural Resources (DNR), Division of Oil and Gas (DO&G), gives notice under AS 38.05.945(a)(4), that it will offer lands for competitive oil and gas leasing in North Slope Areawide 2000 Oil and Gas Lease Sale. North Slope Areawide 2000 is scheduled to be held at 8:30 a.m., on November 15, 2000, in the Wilda Marston Theater, in the Loussac Public Library, 3600 Denali Street, in Anchorage.

The North Slope Areawide Sale encompasses a gross area of approximately 5.1 million acres, divided into 1,225 tracts ranging in size from 640 to 5,760 acres. These tracts are located entirely within the North Slope Borough between the Canning River and ANWR on the East and the Colville River and NPRA in the West. The southern boundary of the sale area is the Umiat Meridian baseline. The northern fringe of the sale area is set back from the Beaufort Sea to exclude any tide or submerged lands.

DO&G has prepared an official tract map that displays the location of all tracts within the sale area. Only those lands within the sale area not covered by existing leases as of July 10th, 2000 will be considered available for leasing. Lands released from leased status after that date would then be offered in North Slope Areawide 2001 scheduled for October 2001.

The exact amount of the net leaseable acreage in each tract will not be determined until after the bids are received. At that time DO&G will complete a comprehensive evaluation of the lands within the tracts that received bids to determine which lands are available for lease. Acreage not owned by the state, already subject to an oil and gas lease, or clouded by title claims will be excluded from the tract area.

State/ASRC Lands

There are no lands that are jointly owned by the State of Alaska and ASRC currently available within this sale area.

Tract Deletions and Deferrals

The state reserves the right to delete any acreage or tract from the sale at any time before the issuance of the lease.

Best Interest Finding and ACMP Consistency Determination

North Slope Areawide 2000 is an exempt sale held under Alaska Statute(s) 38.05.180(d)(1), and 38.05.035(e)(6)(F). Under these provisions the commissioner may annually offer oil and gas leases of acreage that have been subject to a best interest finding issued within the previous 10 years, unless the commissioner determines that substantial new information has become available that justifies a supplement to the finding.

In support of North Slope Areawide Lease Sale 1998 (a.k.a. Lease Sale 87), the director of DO&G issued a written final finding and decision under AS 38.05.035(e) and (g), on March 17, 1998. This finding sets forth the facts, policies, and applicable laws upon which he has based his determination that oil and gas lease sales on the North Slope of Alaska will best serve the interests of the state. In addition, a final coastal zone consistency determination was also made that oil and gas lease sales are consistent with the North Slope Borough and Alaska Coastal Management Programs (ACMP).

On March 8, 2000 DO&G issued a Call for Comments requesting new information regarding the proposal to re-offer available North Slope acreage in the year 2000. At that time the final finding for the 1998 North Slope areawide sale and the final coastal zone management consistency determination were made available for public review. DO&G requested new information subsequent to publication of the 1998 final finding. Based on the information received, concurrent with this sale announcement DO&G is issuing a Decision to Supplement the best interest finding with a *Supplement to Chapter 5, Reasonably Foreseeable Effects*. This decision also contains the division's responses to each comment received.

Appeal Procedures

This Decision to Supplement is a final administrative decision of the department. A person who is aggrieved by the decision to supplement the best interest finding or the division's responses to comments received may request the commissioner to reconsider these actions under AS 35.05.035(i) and (j). To be eligible, an appellant must have meaningfully participated in the Finding process by either submitting written comments during the prescribed comment periods, or by presenting oral testimony at a public hearing regarding the sale. A request for reconsideration must be received by the Commissioner, Department of Natural Resources, in Suite 1410 of the Atwood Building, located at 550 W. 7th Ave., in Anchorage, Alaska 99501, or received by fax at (907) 269-8918 by **5:00 p.m. (ADT), September 5, 2000**. If the commissioner fails to act on the request for reconsideration by **September 14, 2000**, the request is considered denied.

A denial of a request for reconsideration is the final administrative decision for purposes of appeal to Superior Court. A person may appeal the Decision to Supplement to the Superior Court only if the person was eligible to request, and did request, an administrative reconsideration of the finding by the commissioner. An appellant must initiate an appeal to the Superior Court within 30 days from the date of denial of that reconsideration or from the date of distribution of the denial decision, in accordance with the rules of court and to the extent permitted by applicable law.

Mitigation Measures

AS 38.05.035(e) and the departmental delegation of authority give the director, DO&G, the authority to impose conditions or limitations, in addition to those imposed by law, to ensure that the disposal best serves the interests of the state. To meet this requirement, the director has adopted environmental and social mitigation measures will be enforced throughout the duration of the lease. These mitigation measures are necessary to protect biological, cultural and archeological resources, and to mitigate social impacts of lease related activities. Enforcement will be imposed through approval of plans of operations, exploration and development and other permits. DO&G will review this plan for consistency with the ACMP the under 6 AAC 50. The lessee must obtain all the necessary permits and approvals otherwise required by law or regulation for the proposed activity. Additional restrictions may be imposed through the permitting process and the ACMP review process.

In addition, some proposed lease activities may be subject to the local land use regulations.

Sale Terms

Bidding Method:

The bidding method for all tracts in North Slope Areawide 2000 will be cash bonus bidding with a minimum bid of **five (\$5) per acre** on all tracts.

Royalty Rate/Length of Lease:

Leases on all tracts will have a term of **seven (7) years**.

Leases issued on **Tracts 0520 through 0541, 0543, 0544, 0606 through 0628, 0630, 0631, 0747 through 0776, 0779, 0782, 0785, 0917 through 0945, 0948, 0951, 0954, 1031 through 1063, 1066, 1069, 1072, 1132 through 1160, 1164, 1167, and Tracts 1208 through 1213** will have a fixed royalty rate of **sixteen and two thirds percent (16.66666%)**.

Leases issued on the rest of the tracts will have a fixed royalty rate of **twelve and one half percent, (12.5%)**.

Lease Forms:

Leases will be executed on Form No. DO&G 9609 (COMPETITIVE OIL AND GAS LEASE), revised in August 2000. The lease form will be revised again in the near future to update the new address for the offices of the division of Revenue and Billing.

Rental

Annual rental will be \$1.00 per acre for the first year, \$1.50 per acre for the second year, \$2.00 per acre for the third year, \$2.50 per acre for the fourth year, and \$3.00 per acre for the fifth and following years.

Bonding

Before beginning lease operations, an oil and gas lease bond of a minimum of \$10,000 per operation is required under 11 AAC 83.160. In the alternative, a statewide oil and gas lease bond of a minimum of \$500,000 for operations conducted on more than one lease may be filed. These bonding provisions do not affect the commissioner's authority to require additional unusual-risk bonds as may be necessary. In addition, the Alaska Oil and Gas Conservation Commission (AOGCC) requires a bond of at least \$100,000 for a single well or a bond of at least \$200,000 to cover wells statewide before drilling operations will be permitted by AOGCC.

Sale Information

Copies of the final finding are available at the following locations: Nuiqsut Public Library, North Slope Borough Library Media Center, North Slope Borough offices, Tuzzy Consortium Library in Barrow, Kaveolook School Library in Kaktovik and Loussac Public Library in Anchorage.
