

This map was created, edited, and published by the State of Alaska, Department of Natural Resources, Division of Oil and Gas.

Albers Equal-Area Conic Projection, 1927 North American Datum, Clarke 1866 ellipsoid with a central meridian of 148° 30', origin latitude of 50°, northern parallel of 65°, and southern parallel of 55°.

The depiction of the Arctic National Wildlife Refuge (ANWR) boundary is based off of 1:250,000 quadrangles. Due to an incompatibility of data sources, the depictions of the boundaries of the National Petroleum Reserve Alaska and the Arctic National Wildlife Refuge do not accurately reflect the location of the boundaries of these federal withdrawals. These depictions have not been approved by the State of Alaska or the United States.

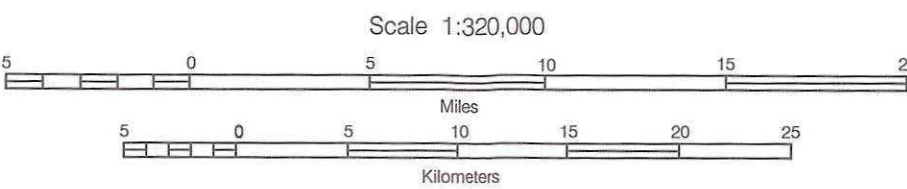

Selected hydrographic data was compiled from the National Imagery and Mapping Agency, Vector Map Level 0, Digital Data Set, Edition 4, 1997. Other information on this map is depicted only at a Township or Section level resolution. For detailed information regarding any specific area, interested individuals may consult the land records of one or more of the following agencies:

The State of Alaska, Dept. of Natural Resources  
The Federal Bureau of Land Management  
The Federal Minerals Management Service  
Arctic Slope Regional Corporation

Discrepancies in boundary alignments are the result of merging multiple data sets from a number of different sources.

Map Location

## Oil and Gas Lease Sale North Slope Areawide 2000 August 2000

- State acreage
- Currently leased State acreage  
(As of July 10, 2000)
- Federal lands
