

**NOTICE OF ANALYSIS AND PROPOSED DECISION  
TRANS-ALASKA PIPELINE SYSTEM, ADL 63574  
SAGAVANIRKTOK RIVER REVETMENT & FLOOD CONTROL STRUCTURES  
AT PIPELINE MILEPOSTS 24.3 AND 28.0**

The Alaska Department of Natural Resources (DNR), pursuant to Alaska Statute (AS) 38.35.080, hereby gives notice that DNR has prepared an Analysis and Proposed Decision for two requests submitted by Alyeska Pipeline Service Company (APSC), to amend the Trans-Alaska Pipeline System (TAPS) Right-of-Way (ROW) Lease, ADL 63574. DNR proposes to add lands to the TAPS ROW at approximately 24 and 28 miles south of Pump Station 1 in Deadhorse, Alaska. During the winter of 2018-2019, there was severe aufeis buildup and rapid snowmelt, producing high water levels that damaged existing flood control structures along the Sagavanirktok (Sag) River. The proposed projects are near TAPS Pipeline Milepost (PLMP) 24.3 and PLMP 28.0.

At PLMP 24.3, APSC proposes to add lands to accommodate the installation of a revetment to protect TAPS from further bank erosion on the Sag River. The proposed construction ROW is approximately 1,000' long by 150' wide; located within the SE4SW4 of Section 30 and NE4NW4 Section 31, Township 7 North, Range 14 East, Umiat Meridian; and containing approximately 3.4 acres.

At PLMP 28.0, APSC proposes to add lands to accommodate the installation of a new revetment cap to protect TAPS from further bank erosion and buried pipeline exposure on the Sag River. The proposed construction ROW is located within the SE4 of Section 13, Township 6 North, Range 13 East, Umiat Meridian; and containing approximately 2.2 acres.

The public is invited to comment on the Analysis and Proposed Decision. Comments must be submitted in writing to the address below before 5:00 p.m. on October 9, 2019. If public comment indicates the need for significant changes in the proposed decision, then additional public notice will be given on or after October 9, 2019. If no significant changes are required, then the proposed decision, including any minor changes, will be issued without further notice as the final decision after October 9, 2019.

The public may obtain printed copies of these documents, at cost, from the address below. The documents are also available online at: <http://dog.dnr.alaska.gov/Home/Newsroom>.
