Subject: AEX Placer Unit Proposal for 3rd Plan of Development 2018
Date: Wednesday, June 20, 2018 12:58:43

Good Afternoon Ms. Imm,

The recently received AEX Placer Unit 2018 POD, upon review, is incomplete as described in 11 AAC 83.434(c). The POD does not describe the extent to which the requirements of the previously approved plan were achieved, or if actual operations deviated from or did not comply with the previously approved POD. There is some information in the "Progress Report" that was submitted concurrent with the POD, but this information needs to be in the POD, which is a public document. Additionally, substantial portions of the Progress Report do not appear to include confidential information, despite the entire report being designated as containing confidential information.

Please amend the POD to address all requirements in 11 AAC 83.343(c), and provide a version of the Progress Report that contains only those portions that are confidential. The Division will not begin the 60-day POD review process until it receives a complete POD.

Feel free to contact me if you've any questions, and thank you very much for your consideration in this matter.

Ken
